

» 100 Ways to Add 2,000 Steps

It's not just what we eat that's important, but how we use the calories we consume. As long as you're active enough to balance the calories you eat with the calories you burn in physical activity, you can enjoy an occasional treat and still avoid unhealthy or excessive weight gain.

By walking an extra 2,000 steps and reducing 100 calories each day you'll see how easy it is to achieve the energy balance that can stop weight gain.

Small changes in your daily activity will quickly add up to 2,000 extra steps or more! Find ways to add steps at home, at work, at school, and at play with this list of ideas.

***No one tip, by itself, will equal 2,000 steps, but selecting a few of your favorites each day will get you well on your way!**

AT HOME

Household chores, neighborhood walks, and errands are great opportunities for adding steps. Try these ideas for increasing your walking:

1. Circle around the block once when you go outside to get your mail.
2. Walk around the outside aisles of the grocery store before shopping.
3. Drive or walk to a nearby high school and go around the track: 4 laps equals approximately 2,000 steps.
4. Make several trips up and down the stairs to do laundry or other household chores.
5. Pass by the drive-thru window and walk into the bank or restaurant.
6. Stroll the halls while waiting for your doctor's appointment.
7. Listen to music or books on tape while walking.
8. Invite friends or family members to join you for a walk.
9. Mow the lawn.
10. Accompany your children on their walk to school.
11. Take your dog for a walk.
12. Start a walking club in your community.
13. Walk to a nearby store, post office, or dry cleaners to accomplish errands.
14. Catch up on the day's events with your spouse and children on an after-dinner walk.
15. Walk to your place of worship for services.
16. Pace around your house while talking on the phone.
17. Buy a walking video so you can get in your steps on rainy days.
18. Experience the splendor of a sunrise on an early morning walk.
19. Spur your imagination by observing your neighbor's landscaping and gardens while you walk—incorporate ideas from your favorites into your own yard.
20. Walk to a friend's house for a visit.
21. Try "retro walking;" walking backwards distributes your weight more evenly (be sure you're in a safe area and are aware of your surroundings).
22. Focus on walking distance over speed, it's better to get in more steps at a comfortable pace than to burn out quickly.
23. Keep a walking journal, in addition to tracking steps, jot down how you feel after returning from a walk—enhanced energy is a great motivator.
